Dear Mr. Price:

The Department has received and reviewed the soil analyses submitted by your contractor Special Resources Management (SRM).

The acetone levels detected in the soil are well below the health risk based standards for remediation. The Department finds your clean-up to be adequate and no further action is required.

If I may be of further assistance, please contact me or my staff at 334-5879.

Sincerely,

A handwritten signature in cursive script, appearing to read "Brian R. Monson".
